Use any **web browser** to track jobs and time

My Clients & Profits!

An add-on for Clients & Profits that lets anyone track jobs, time, expenses, and more from any computer with an internet connection

MY CLIENTS & PROFITS! is a web server for your C&P database. It is an add-on to Clients & Profits Classic 4, Clients & Profits Pro 4, and Job Tracker 4 that allows anyone to manage jobs, track time and expenses, and more from any web browser. The My Clients & Profits! serves custom web pages using real-time data from your Clients & Profits database. My C&P! is designed for creatives, account executives, and others who typically don't have full-time access to Clients & Profits, but need to work with clients, jobs, time, and job costs. It provides instant access to the shop's Clients & Profits database using Netscape Navigator, Internet Explorer, or any other web browser. With My Clients & Profits!, every staffer can now have the most up-to-date job information at their fingertips. Available September 2000 at an introductory price* of $1,495 (save $1,000). Call (800) 272-4488 for more information.

The My Clients & Profits! web server features:

■ View job tickets, schedules, traffic, creative briefs, work orders, and more

■ Open new jobs, add tasks to jobs

■ Add change orders, diary entries

■ Web-based versions of the Daily Job Hot Sheet, Weekly Traffic report, Client Job Status report, Weekly Task Planner, and Work To Do window

■ View POs, broadcast & print orders

■ Review and add time cards and expenses

■ Lookup lists for clients, vendors, jobs, and more

■ Links to custom company news and calendar pages

■ An optional web-based company handbook

■ User-based security and access privileges

■ Advanced server monitoring tools, including e-mail notification of errors

■ Detailed loggs of all server activity

■ Web pages are 100% HTML and customizable

■ Available Sept 2000

* Introductory price available through 12/31/00. See license agreement for details.

Use any **web browser** to track jobs and time

My Clients & Profits!

The My Clients & Profits! web server acts as a gateway between your shop's Clients & Profits database and any number of Netscape or Internet Explorer users -- whether in the office, working at home, at a client, or on the road

INTRANET

INTERNET

HOW IT WORKS: A user opens Netscape or Explorer then logs onto the server using the special web address using a personalized ID and password. My C&P! verifies the user's access privilegese, then displays a custom home page. This page features links to the various client, job, and costing functions plus custom links to company and industry news, a company calendar, and an optional company handbook.
